## EDUCATION

**New York University** — May 2026

B.S. Applied Psychology · GPA 3.6 · Minor: Integrated Design & Media (HCI/UX)
Steinhardt School of Culture, Education, and Human Development · Dean's List, Spring 2024
Coursework: Human-Centered Research Methods I & II, Statistics for Behavioral Sciences, Agile Product Design, Ideation & Prototyping, Dark Patterns, Seminar I & II

## EXPERIENCE

**Chorvivo** — Sep 2026 – present

Founding Designer · design + research / a startup building a rehearsal-capture app for choreographers

- Lead UI/UX design and discovery interviews with choreographers
- Turn interview findings into user flows, a design system and brand basics, with the founder and an engineer

**Designity** — Jun 15 – Sep 15, 2026 · 3 months

UI/UX Intern · ui/ux design + user research / a "creativity as a service" agency, remote

- Ran user research and usability tests using qualitative and quantitative methods
- Turned findings into design recommendations that fit client and business constraints
- Ran feedback sessions with stakeholders to keep designs consistent and usable
- Kept research documentation organized across projects

**DOROT** — Aug – Dec 2025

Research & Operations Assistant · behavioral data research / social programs for older adults, new york city

- Analyzed behavioral data from 400+ older adults in SPSS to find usability and accessibility barriers
- Wrote recommendations and reports for program stakeholders
- Collected participant data from diverse groups of older adults for impact assessments

**Nordoff-Robbins Center for Music Therapy** — Jan – May 2025

Clinical Observational Researcher · clinical observational research / music therapy for mental health, new york city

- Observed music therapy sessions in a clinical mental-health setting and reviewed them with licensed therapists
- Coded about 130 sessions into a behavioral database, using structured tracking protocols to follow client progress
- Wrote a longitudinal case study from the session data

**NOVA Kitchen and Bar** — Jul – Aug 2024

Operations Intern · operations / a restaurant in orange, california

- Solved operational problems for 100+ guests a day in a busy restaurant
- Worked with a 30+ person team to build faster workflows under time pressure

## RESEARCH

**Technology and well-being: an independent interview study** — Oct – Dec 2025
7 semi-structured interviews, grounded-theory coding, 27-page paper

**Personality, resilience, and life satisfaction** — Aug 2025
Mixed methods: survey of 52, regression and mediation analysis, 1 interview

**Career within spirituality and religion** — Apr 2025
Ethnography: semi-structured interview and workplace observation

## STRENGTHS

**Cross-functional collaboration** · With a founder and engineer at Chorvivo, licensed therapists at Nordoff-Robbins, and stakeholders at Designity

**AI fluency** · Claude, ChatGPT and AI workflows, used mindfully

**Research design rigour** · Validated scales and reliability checks (resilience study); grounded-theory coding (interview study)

**Product thinking** · Turned usability findings into design recommendations at Designity

**Agile** · 1st place in a design-a-thon sprint (Wayfarer); Agile Product Design coursework

**End to end** · Took a study from research question to a 27-page paper on my own; at Chorvivo, from discovery interviews to user flows

## SKILLS

**Research methods** · Usability testing, task analysis, qualitative and quantitative research, behavioral data analysis, research protocol design

**UX design** · Figma, Adobe Illustrator, Adobe InDesign, Adobe Photoshop

**UX research** · SPSS, Excel, R, Salesforce, qualitative and quantitative analysis
