EXPERIENCE

Chorvivo
Sep 2026 – present

Head of design · design + research / a startup building a rehearsal-capture app for choreographers

- Lead the UI/UX and customer discovery interviews
- Turn what choreographers tell us into user flows, a design system, and brand fundamentals, working with the founder and an engineer

Designity
Jun 15 – Sep 15, 2026 · 3 months

UI/UX intern · ui/ux design + user research / a "creativity as a service" agency, remote

- Conducted user research and usability testing, applying qualitative and quantitative methods to evaluate product usability and inform human-centered design decisions
- Translated research insights into actionable design recommendations, balancing user needs with business and stakeholder constraints
- Facilitated structured feedback loops with cross-functional stakeholders to uphold usability standards and design consistency
- Maintained research documentation systems to ensure scalability and coherence across usability research touchpoints

DOROT
Aug – Dec 2025

Research & operations assistant · behavioral data research / social programs for older adults, new york city

- Executed quantitative behavioral data analysis (SPSS) across 400+ program participants to identify usability and accessibility barriers for older adult users
- Translated behavioral research findings into actionable recommendations and stakeholder reports
- Applied user-centered communication methods across diverse populations to ensure high-quality, reliable data collection for impact assessments

Nordoff-Robbins Center for Music Therapy
Jan – May 2025

Clinical observational researcher · clinical observational research / music therapy for mental health, new york city

- Conducted structured qualitative observational research in a clinical mental-health setting, collaborating with licensed therapists on post-session analysis
- Coded and managed a behavioral database of ~130 therapy sessions using structured tracking protocols to map client progress
- Synthesized complex behavioral data into a detailed longitudinal case study

NOVA Kitchen and Bar
Jul – Aug 2024

Operations intern · operations / a restaurant in orange, california

- Identified and resolved operational pain points for 100+ daily guests in a high-volume, fast-paced environment
- Collaborated with a 30+ member team to develop efficient operational workflows under time pressure

RESEARCH

Technology and well-being: an independent interview study
Oct – Dec 2025

7 semi-structured interviews, grounded-theory coding, 27-page paper

Personality, resilience, and life satisfaction
Aug 2025

Mixed methods: survey of 52, regression and mediation analysis, 1 interview

Career within spirituality and religion
Apr 2025

Ethnography: semi-structured interview and workplace observation

EDUCATION

New York University, Steinhardt
May 2026

B.S. Applied Psychology · Minors: Integrated Design & Media (HCI/UX), Philosophy · Dean's List, Spring 2024

Coursework: Human-Centered Research Methods I & II, Statistics for Behavioral Sciences, Agile Product Design, Ideation & Prototyping, Dark Patterns, Seminar I & II

SKILLS

Research methods	Usability testing, task analysis, qualitative and quantitative research, behavioral data analysis, research protocol design
UX design	Figma, Adobe Illustrator, Adobe InDesign, Adobe Photoshop
UX research	SPSS, Excel, R, Salesforce, qualitative and quantitative analysis
